

Andrei Parcheuski

Senior Angular Developer · 3D / WebGL

parchevscky17@gmail.com | +48 572 017 314 | Warsaw, Poland | andreiparcheuski.com | linkedin.com/in/andrewpar14 | npm: @3dsorce

PROFESSIONAL SUMMARY

Senior Angular Developer with 11+ years building production-grade web applications across healthcare, e-commerce, LMS, and AR/VR — including 6+ years with US companies (remote) and 3+ years of team-lead experience. Core strength in the Angular ecosystem (9+ years): Signals, NgRx and Signal Store, RxJS, Reactive Forms, and performance — combined with rare depth in 3D on the web (Three.js, WebGL, Unreal Engine pixel streaming). Author of 8 published npm packages. Strong focus on testing and code quality (Playwright, Vitest, 95% coverage on core modules), mentoring, and shipping complex platforms on schedule.

TECHNICAL SKILLS

Angular Ecosystem: Angular 2+ (9+ yrs), Signals, NgRx, NgRx Signal Store, RxJS, Reactive Forms, Angular Material

3D & AR/VR: Three.js, WebGL, Unreal Engine pixel streaming, 8th Wall, Wikitude

React: React, Next.js, SSR, React Query, Redux Toolkit

Languages: TypeScript, JavaScript, HTML5, CSS, SCSS

Architecture & Quality: Frontend architecture from scratch, design patterns, lazy loading, performance optimization, monorepo, npm package publishing, PWA, SPA

Testing: Playwright (E2E, GraphQL stubbing, code coverage), Vitest, Jest

APIs & Data: REST, GraphQL, MySQL, PostgreSQL

DevOps & Tools: CI/CD, Docker, Jenkins, Vite, Webpack, AWS, Azure, GitLab, GitHub, Headless CMS, Jira

Methodologies: Agile/Scrum, sprint planning, code review, i18n, SEO

WORK EXPERIENCE

3D Source — Senior Front-End Developer

Oct 2023 – Present | Warsaw, Poland

- Architect and build 3D product configurators with Angular and Three.js — ~30 enterprise projects on a shared 80,000-line codebase.
- Integrated real-time Unreal Engine pixel streaming into the Angular front end for high-fidelity 3D rendering.
- Authored and published 8 npm packages under @3dsorce — shared Angular UI component library, data loaders, and configurator APIs.
- Built an external integration API enabling embedding and two-way interaction via iframe.
- Reached 95% test coverage on core modules — Playwright E2E with GraphQL stubbing and code coverage, plus Vitest unit tests.
- Led a platform-wide front-end performance optimization (bundle size, loading time, rendering).

ITRex Group — Front-End Team Lead

Nov 2021 – Sep 2023 | Remote, US

- Led a 4-person frontend team across two flagship projects on a 2-week release cycle; shipped ~20 major features on schedule and mentored 2 developers.
- Owned the frontend architecture of a React/Next.js vendor-management platform for the sports industry — from schema design to Azure deployment.
- Built multi-language internationalization with full LTR/RTL support (including Arabic), dynamic routing, and responsive layouts.
- Delivered hybrid-app support (iOS and Android via WebView bridge), push notifications, and custom elements through the Kentico CMS API.
- Collaborated with management and third parties (Google Ads, Batch) on performance and SEO; reviewed pull requests and owned feature estimations.

ITRex Group — Front-End Developer

Dec 2019 – Nov 2021 | Remote, US

- Delivered 4 key projects using React, Angular, and 8th Wall.
- Built a high-traffic marketplace platform with Angular, RxJS, and Material UI: set up the application architecture, integrated 8th Wall for AR model and asset display, owned testing and Heroku deployment.

HQSoftware — Full-Stack Web Developer

Nov 2018 – Dec 2019 | Remote, US

- Lead developer on a 9-person team — drove product definition and requirements analysis, and synchronized desktop and mobile XR experiences.
- Selected and owned the technology stack: Three.js, Angular, Angular Material, NgRx.

HQSoftware — Front-End Web Developer

Jul 2017 – Nov 2018 | Remote, US

- Built a client web platform from scratch for authoring AR and VR (extended reality) scenes.
- Developed PWA and SPA experiences with Angular, Three.js, Wikitude, and a custom XR Builder.

IBA Group — Full-Stack Web Developer

Apr 2016 – Jun 2017 | Minsk, Belarus

- Migrated a legacy Learning Management System to a modern React UI on a Ruby on Rails backend.

SoftClub — JavaScript Developer

Mar 2015 – Apr 2016 | Minsk, Belarus

- Built automated banking-data dashboards with JavaScript, QlikView, and SQL.

EDUCATION

M.Sc. in Applied Mathematics and Computer Science

2016 – 2017 | Minsk, Belarus

Belarusian State University

B.Sc. in Applied Mathematics (Optimization Methods)

2011 – 2016 | Minsk, Belarus

Belarusian State University
